GOOD TELEPHONE AND CUSTOMER SERVICE

The following telephone tips will be helpful in providing good "Customer Service".

On the Telephone

On the telephone your voice is you and you are the representative of the Ontario Government. The person calling cannot see your facial expressions or gestures, he can only judge your attitude and your willingness and desire to be of service by the sound of your voice. **The listener "hears" the way you look** and makes a mental image of you and your work. If used properly, the telephone can be a positive way to project an image of efficiency and to improve goodwill.

Telephone Courtesy

A caller should generally not have to speak to more than one person before getting to the person they want. Calls should not be screened. Some people are annoyed when asked to give their name.

Keep your promises. If you say you will call back, do so. If you're leaving your office, leave word where you can be reached or when you will be back.

If the person being called is tied up or unavailable, give the caller the choice of waiting on the line or leaving a message. Don't keep the person waiting too long - a few minutes can seem like hours. Reassure the caller every 30 seconds or so that they haven't been forgotten.

Ways to Improve Your Telephone Personality

1. **BE ALERT.** Show interest in the person calling. You don't turn away when meeting a person face-to-face, so don't do it on the telephone.
2. **BE NATURAL.** Be yourself!
3. **BE PLEASANT.** Friends can be made or lost on the telephone. Answer pleasantly.
4. **BE DISTINCT.** Use clear, distinct speech. Don't make the caller strain to understand you. Don't speak too loudly or too quickly. It doesn't matter how friendly you are, if the caller is unable to understand you.
5. **DON'T RUSH.** If you rush callers, they will feel that they are being given the brush off.

Receiving Calls

Answer promptly; it indicates efficiency.

Identify yourself and your office or the phone you are answering. If a caller has to ask who you are, then your response was inadequate.

Let the caller hang up first to make sure you do not miss any additional information.

Answering Someone Else's Phone

Identify the telephone line — try "Mr. Jones' desk/office".

Do take a message and make sure it is promptly relayed to the person called.

Don't offer information about which you are not sure — you might be wrong.

Making Calls

Make sure the line is not already in use. Check the number, dial carefully. Mistakes waste time.

Give the person you are calling time to answer — at least ten rings. It may save calling back later.

When the number called is answered, identify yourself, don't make the called person guess or ask.

Transferring Calls

Transfer calls only when necessary and be sure the caller is willing to be transferred.

Explain why the transfer is necessary, and give the caller the name of the person or office to whom he will be speaking, if possible.

Don't transfer calls if you aren't sure to whom the caller should speak.

If you are unable to make the correct transfer, take the name and number and call back when you have the correct information.

TO TRANSFER A CALL

You may transfer incoming calls which have been direct-dialed or connected through the Centrex System. **YOU CANNOT TRANSFER INTERNAL CALLS.** Tell the person that you are transferring the call; then **MOMENTARILY DEPRESS THE TELEPHONE CRADLE BUTTON, OR HOOK SWITCH ONCE, RELEASE, AND WAIT FOR THE OPERATOR TO ANSWER.** Ask the operator to transfer the call by giving her the last 5 digits of the desired local.

LONG DISTANCE

The Inter-City Network provides the Government with the lowest cost method of making long distance calls. To take full advantage of the savings this service offers over regular long distance, always use the Inter-City Network when calling the localities listed on Page XV. When calling localities not covered by the Network, use station-to-station (DDD), which is the most economical way to place regular long distance calls.

When it is necessary to place: person-to-person, collect, third number billed and credit card calls, Bell operator assistance is required. These calls incur a much higher cost than station-to-station (DDD) and should be avoided unless absolutely necessary. All operator-assisted calls, including overseas calls, can now be dialed by the caller from within Toronto and vicinity. Instructions on how to dial your own calls are provided in the Bell Canada Metropolitan Toronto Telephone Directory.

Remember, in the interest of economy, always try the Inter-City Network first — where applicable — otherwise use station-to-station (DDD); and, only when necessary use operator assistance.

INTER-CITY SERVICE

The Inter City Network is designed to provide telephone service between Queen's Park and centres outside Toronto at a lower cost than long distance calling. The network of course, should only be used by Government employees and Members of the Provincial Parliament for the conduct of business of the Legislature or Government.

The probability of obtaining a line is improved if calls are placed outside the daily busy periods which occur between 10:00 a.m. — 12:00 noon; and 1:30 p.m. — 3:30 p.m. During the busy periods, all lines to a given centre may be momentarily busy. At such times, please hang up and dial again after a short interval. Long distance should be used only in cases of immediate urgency or if the municipality is not covered by the Inter-City Network.

To use the Inter City service merely dial the three digits listed opposite the locality you wish to reach then the seven digit local number. It is not necessary to dial 9 or 1 first. Following is a list of localities served by the Network:

PROGRAM SERVICES DIVISION		COMMERCIAL STANDARDS PROGRAM	
7th Floor 555 Yonge Street		<i>This program consists of five activities that provide for the regulation of financial and commercial affairs to promote a high level of ethical business conduct responsive to the needs of the buyer in the market place. This is achieved through disclosure to the public of the essential elements of business transactions including the issuing of securities, registration and licensing of persons dealing with the public to assure a high degree of competence and honesty in their dealing and examination and surveillance of the financial standing and practices of firms. In addition this program provides service for incorporation of companies, administration of The Motor Vehicle Accident Claims Act in respect of the adjustment of claims and payment of damages occasioned by the operation of stolen, unidentified or uninsured motor</i>

TECHNICAL STANDARDS PROGRAM

This program consists of six operating activities, co-ordinated by the Office of The Executive Director, which are responsible for ensuring public safety through the inspection of elevators, pressure vessels, upholstered and stuffed articles, the transmission, transportation, distribution and utilization of natural gas, propane and fuel oil, the storage, transportation, distribution of gasoline and associated products, and the issuance of licences for the operation of elevators and pressure vessels. The Uniform Building

standards activity is seeking to establish, through several advisory committees, a system of uniform building and fire safety standards for the Province.

This Division has three major responsibilities which provide a scientific base for many of the Ministry's policies and activities:

To serve as the central approval and co-ordinating agency for applications involving the design, construction and operation of water, sewage, solid waste reclamation and recycling plants and waste disposal sites required under Ontario legislation.

To conduct scientific and technical research, assessment and pollution control programs involving the use of water, land and air resources, the environmental implications of realty development and the control of all forms of pollutants.

And, to provide technical and supervisory services required in the planning, construction and operation of water and sewage treatment plants, solid waste and resource recovery facilities.

MINISTRY OF HOUSING

(Location Exceptions Noted)

The Ministry is charged with the responsibility for ensuring an adequate supply of housing at affordable prices—directing and co-ordinating all provincial efforts to meet the housing needs of Ontario residents. Ministry programs help to bring serviced land into production, improve existing housing, broaden the housing mix, facilitate home ownership, speed development approvals, foster effective municipal planning, encourage the development of rental accommodation and provide rent-geared-to-income housing for families and senior citizens of low and moderate incomes.

FISCAL POLICY DIVISION

4th Floor Frost Bldg South

Divisional responsibilities revolve around planning and production of the Provincial Budget, including all major aspects of public finance, eg. Provincial and local government taxation and grants policy; Provincial fiscal policy; federal-provincial tax-sharing; financing of shared-cost programs; and equilization. The division monitors in-year budget performance and co-ordinates multi-year fiscal projections. The division also conducts original research and develops proposals in many areas of public finance including tax incidence, tax reform, social security, intergovernmental finance and economic stabilization. Much of the division's work is published.

GOVERNMENT TELEPHONE SYSTEMS

The Telecommunication Services Branch of the Ministry of Government Services provides telephone systems throughout the province for public servants to use in communicating with each other and with the public in the conduct of government business. At Queen's Park, both a Centrex telephone system for local service, and access to an Inter City Network for Inter-city calling, are provided to serve government ministries and agencies in the Toronto area.

The Centrex system facilitates "direct-in-dialing", enabling those people calling from outside government, as well as internal callers, to bypass the Central Switchboard. This provides a faster, more efficient, and a more personal service for callers. The Central Switchboard does provide an information service for callers to the main government telephone number, in the course of answering enquiries and passing along callers as quickly as possible to the appropriate ministries and agencies. It is therefore most important that any directory listing changes be reported as soon as possible.

The Inter City Network is designed to provide telephone service between Queen's Park and centres outside Toronto, at a lower cost than long distance calling. This network, of course, should only be used by Government employees and Members of the Provincial Parliament for the conduct of business of the Legislature or Government. When making a call from Toronto, the list of localities served (Page XV) should be consulted, and if the municipality being contacted is listed, the Network should then be utilized. If the Network is busy try it again after a short interval. Long distance should be used only in cases of immediate urgency or if the municipality is not covered by the Inter-City Network.

TELECOMMUNICATION SERVICES

PROVISION OF SERVICES

The Telecommunication Services Branch provides a complete range of telecommunication services to all government users. In addition, its role is to coordinate and plan the rational evolution of government telecommunication systems, and to promote and protect the best telecommunication interests of government users. Services encompass telephone (local and inter-city), intercom systems, radio telephone systems, teletype systems, data communication systems, radio systems, facsimile, cable, satellite and various other special telecommunication systems. New and improved common service data, teleconference and other services are presently under development, and will be introduced as soon as available.

Services provided include those of both an operational and an advisory nature. Operational services include telecommunication systems design, systems/service acquisition, systems implementation, and the

provision and management of common telecommunication services (Centrex services, Inter City Network). Telecommunication advisory services include system feasibility studies, systems planning, hardware and software evaluation, project management and coordination and both the preparation of request for proposals and the evaluation of supplier proposals.

To obtain additional information or assistance regarding these services, call the Telecommunication Services Branch at 5-6265 (detailed listings on page 86).

HOW TO ARRANGE FOR TELEPHONE SERVICES, INFORMATION LISTINGS AND DIRECTORIES

Each ministry or agency has designated an individual as a Telephone Coordinator. This person's principal task is to coordinate the handling of all requests for telephone and intercom services, but also includes the responsibility for supplying government and municipal directories and for updating directory and switchboard information listings. In some ministries, a different person is responsible for updating the directory and switchboard information listings.

The role of these coordinators involves liaising with the Ministry of Government Services for the provision of these services. In the event your Telephone Coordinator is unavailable, additional information or assistance may be obtained directly from the Telecommunication Services Branch at 5-1414. See list of Telephone and Directory Coordinators on following pages.

CITIZENS' INQUIRY

The Citizens' Inquiry Bureau of the Ministry of Culture & Recreation assists in making the Ontario Government more responsive to requests from individual citizens who may have difficulty in obtaining government information or assistance. The branch (416) 965-3535 supplements existing channels of communication between citizens and the government. The Kwic Index to the Government of Ontario is a companion reference directory to the Ontario Government Telephone Directory and is available from either the Ministry of Government Services Publications Service, 5th Floor, 880 Bay Street, Toronto, M7A 1N8 or the Ontario Government Bookstore, 880 Bay Street at Grosvenor, Toronto (Price — \$4.00 + .28¢ tax).

DIRECTORY ASSISTANCE

Remember, there is a .25¢ charge for each number provided by a Directory Assistance Operator when the number requested is listed in your local telephone directory (shaded area on map below for Toronto). Please check your directory before calling Directory Assistance.

to dial local calls

1. Look up the number, jot it down.
2. Listen for dial tone before you dial.
3. Dial 9 plus the telephone number.

Listings for the other exchanges shown on the map may be obtained by dialing 9 + 411. If you have occasion to make frequent calls to these areas, additional telephone directories may be obtained at no charge from your Directory Co-ordinator.

For out-of-town Directory Assistance dial 9 + 1 (+ area code if different from your own) + 555-1212. There is no charge for this service.

Please note that any calls (not Directory Assistance Calls) from the shaded area to any exchange shown on the above map are free.

As Minister of Government Services it is my privilege to bring you the latest edition of the Government of Ontario Telephone Directory.

The purpose of this publication is to enable you to contact the Ministry or person you need as quickly as possible. To this end the people involved in the Information and Communication branches of the Government have attempted to make this as easy as possible. If you have any ideas on how to do this more effectively I would be very pleased to receive your comments.

Lorne C. Henderson
